---

**KIT - DESMOKING EQUIPMENT**

**1H 0000-LL-CQA-2446**

QAR

This kit identifies all equipment used for the function of conducting desmoking operations during and after a fire. Individual items are listed on AEL #2-880044238.

---

**KIT - DEWATERING EQUIPMENT**

**1HM 0000-LL-CQA-2447**

QAR

This kit identifies all equipment used for the function of conducting dewatering operations during and after flooding or firefighting. Individual items are listed on AEL #2-880044240.

---

**KIT - ELECTRICAL REPAIR-DC**

**1H 0000-LL-CQA-2449**

QAR

Used in damage control repair stations by qualified repair party electricians, this kit identifies all equipment used for the function of providing repairs to electrical panels, lighting, wireways and portable electrical equipment. Individual items are listed on AEL #2-880044244.

---

**KIT - EMERGENCY COMM-DC**

**1H 0000-LL-CQA-2451**

QAR

This kit identifies all equipment used for the function of providing emergency communications at battle stations or other general shipboard casualties. Individual items are listed on AEL #2-880044246.

# R & A / REENTRY LOCKER

Quantity  
Required

KIT - EMERGENCY LIGHTING - DC

QAR

1H 0000-LL-CQA-2452

This kit identifies all equipment used for the function of providing extension cables and lights where power supply has been interrupted. This is used during shipboard casualties and Condition 1. Individual items are listed on AEL #2-880044248.

KIT - FIRE FIGHTING/ACCESS  
EQUIPMENT-DC

QAR

1H 0000-LL-CQA-2454

This kit identifies all equipment used for the function of providing access to fire areas. Individual items are listed on AEL #2-880044252.

KIT - FIRE FIGHTING/ACCESS  
PERSONNEL - DC

QAR

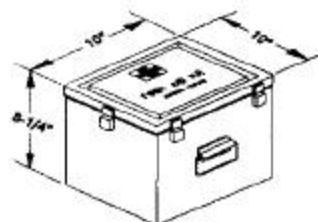

1H 0000-LL-CQA-2455

This kit identifies all equipment used for the function of providing personnel protection to the fire fighter. Individual items are listed on AEL #2-880044254.

KIT - FIRST AID

NSN 6545-00-116-1410

WT. 10.0 lbs. VOL. 26.9 in<sup>3</sup>

QAR

Helpful Hints:

A laminated kit inventory should be with this kit.

Actual Inventory:

KIT - GAS FREE ENGINEER-DC

1H 0000-LL-CQA-2456

This kit identifies all equipment used for the function of detecting the presence of poisonous and volatile fumes and gas, and to determine oxygen deficiency in a given compartment. Individual items are listed on AEL #2-880044260.

Actual Inventory:

**DELETE**

# R & A / REENTRY LOCKER

KIT - INVESTIGATOR - DC

1H 0000-LL-CQA-2457

QAR

This kit identifies all equipment used for the function of performing the preliminary survey of a known or suspected damage/fire/flooding area. Individual items are listed on AEL #2-880044262.

KIT - LOW PRESSURE BOUNDARY COOLING-DC

1H 0000-LL-CQA-2458

**DELETE**

QAR

This kit identifies all equipment used for the function of boundary cooling. Individual items are listed on AEL #2-880044264. AEL number replaces deleted L.P. Air Line Jumper Kit.

KIT - PORTABLE PUMP  
ACCESSORIES-DC

1H 0000-LL-CQA-2460

QAR

This kit identifies all equipment used for the function of providing accessories to the P-100 pumps to function as a dewatering/fire fighting pump. Individual items are listed on AEL #2-880044268.

KIT - PIPE PATCHING-DC

1HM0000-LL-CQA-0095

QAR

This kit identifies all equipment used for the function of providing emergency pipe repair on L.P. systems. Individual items are listed on AEL #2-880044268.

KIT - PLUGGING-DC

1HM0000-LL-CQA-0102

QAR

This kit identifies all equipment used for the function of providing emergency hull/bulkhead plugging repair and split seam repair caulking. Individual items are listed on AEL #2-880044272.

# R & A / REENTRY LOCKER

Quantity  
Required

**KIT - PORTABLE EXOTHERMIC  
CUTTING UNIT (PECU)-DC**

QAR

**NSN 4240-01-272-3841**

The PECU will replace existing portable oxyacetylene cutting units on a one for one basis. The PECU will provide for more rapid access into areas of the ship where normal access is impaired for fire fighting operations, and to drain accumulated firefighting water from areas of the ship where the effects of the accumulated firefighting water will impair the ship's stability. The PECU utilizes expendable cutting rods which operate on the exothermic torch principle. This principle involves the use of oxygen which is combined with a fuel. In this case the fuel is a steel tube. The exothermic cutting rod is ignited when the oxygen passing through the iron rod comes in contact with a spark generated from a 12 volt DC battery powered igniter. This kit identifies all equipment used for the function of cutting through ferrous and non-ferrous wiring and other shipboard materials, particularly aircraft carrier flight decks. Individual items are listed on AEL #2-880044274.

Helpful Hints:

**KIT - RESCUE AND ASSIST-DC**

QAR

**1H 0000-LL-CQA-2464**

This kit identifies all equipment used for the function of providing off ship assistance at sea or in port to conduct fire fighting, dewatering or personnel rescue operations. Individual items are listed on AEL #2-880044279.
